

Make your own 3D Christmas tree

1. Print this page on heavy paper or card.
2. Cut out the two trees and your favourite tree topper.
3. Cut along the dotted lines on each tree and the topper.
4. Decorate the tree with anything you want.
5. Make sure you decorate the back and front.
6. Draw and colour in some baubles or Christmas lights as well.
7. Decorate the tree topper (either the star or the circle).
8. Slot the two trees together.
9. Add the topper.
